

Notice Changes

The following changes were made to TEAMS notices, at the request of the PIER team.

X003 'Request for Wage Verification'

This notice was updated to closer mimic the HCS-242 Report of Employment Income form. Some formatting was changed to allow more room for requested information. The notice now includes a request for information on employment that has ended. A Medicaid ARM was also added to the legal cites.

NOTE: You may choose to use the 'X017 Lost Job/Reduced Hours' notice in place of the X003 notice in situations where the individual is reporting loss of a job or reduction in hours.

NOTE: The HCS-242 Report of Employment Income form has also been updated. You will receive email notification of the form change from Deanna Albert. The old forms are obsolete.

X034 'Recert/Rede Interview FS/TANF'

This notice was updated to allow more free form text when describing the date and time for the scheduled interview.

X501 'Revert to Open'

This notice was updated to include language that indicates if a household is receiving TANF cash assistance and has been referred to WoRC for case management services, they will need to negotiate an updated Employability Plan (EP) prior to further TANF benefits being issued.
